WHOLESALE NET PRICE LIST

APPLYING TO CATALOG No. 167

OCTOBER 15, 1925

MILLWORK — DOORS — SASH

FRAMES — FINISH — GLASS

PAINT — HARDWARE

The Cleveland Window-Glass and Door Company

Cleveland.

Terms

5% if cash is sent with order.

2% for payment in 10 days.

30 days net.

20% deposit for shipments sent C. O. D.

The 2% or 30 days is made to responsible parties.

New customers will avoid delay by giving references.

The 5% discount is given because it eliminates Credit Risk—Carrying of the account and Bookkeeping—consequently can only be allowed when payment is made in advance.

Odd or Special Work

is any article which varies from those listed as stock in our price list.

We are exceptionally well equipped to get out such work but it will cost more than stock even if the difference is very slight—You will save money and time and get just as good quality by using stock wherever possible.

All prices are F. O. B. cars at shipping point—Delivered prices will be given when requested.

CARE OF VENEERED DOORS

All veneered doors are built of kiln-dried softwood cores solidly glued together and covered with the face veneer also glued on.

Glue is soluble in water. Moisture will soften it.

Our doors will be dry when delivered — they should be KEPT DRY. Kiln-dried wood will absorb moisture from damp rooms or freshly plastered walls.

All veneered doors should be filled or oiled as soon as they are delivered on the job.

Veneered doors should not be used as outside doors, unless well protected by porches from direct exposure to the weather.

If used for outside doors they should have two coats of good outside varnish and the top and bottom edges should be painted two coats.

All hardwood doors will be furnised machine smoothed unless hand smoothing is specifically provided for.

The Veneered Doors quoted in this list are all either Oak or Birch, which are the only woods carried in stock.

We can furnish any design quickly in any desired wood—Poplar, Chestnut, Gum or Mahogany.

The Red Gum and the Figured Gum make an especially beautiful door. We will be glad to estimate on any design in any hardwood.

Page numbers at top of page refer to our catalogue No. 167.

MIRROR DOORS

No. 393

The following prices are for Mirror and applying to door, and should be added to net price of door.

Door Size	Plain Mirror	1¼" Bevel Mirror
2–0x6–6	13.00	16.00
2–2	15.00	18.00
2–4	17.00	20.00
2–6	19.00	22.00
2–0x6–8	13.50	17.00
2–2	16.00	19.00
2–4	17.50	21.00
2–6	19.00	22.50
2–8	21.00	25.00
2–0x7–0	14.50	18.00
2–2	16.50	20.50
2–4	18.00	22.00
2–6	20.00	24.00
2–8	22.00	26.50
2–10	24.00	28.50
3– 0	27.00	31.00

This cut shows a sunken Mirror. We also furnish mirrors planted on the door. The advantage of this is that the mirror can be taken off and used elsewhere, leaving the door intact. If this style is desired, order No. 394. Prices same as No. 393.

We carry in stock 2-0x6-8 1⅜" in No. 381 Oak, No. 381 Birch and No. 625 Pine Miracle. Other sizes and designs to order promptly.

CABOT'S CREOSOTE STAINED SHINGLES

Our shingles are all of the best selected Kiln Dried Cedar. Sound, live lumber that will not check or crack, will lie flat on roof or wall and will be free of waste. They are straight grain shingles of standard thickness. Square edges and parallel widths. No wedge shapes. All colors—Standard moss greens; bungalow browns; tile reds; silver grays and many other shades of the richest, strongest and most durable stains made. Original Bundles—Our shingles are always stained and finished in the original bundles. No short measure bundles. Stains are forced completely through the bundle and into the pores of the wood. Results: Shingles thoroughly stained, wood thoroughly preserved.

BUILDER'S HARDWARE

Introductory

There are three very important features to be considered when selecting Builders' Hardware.

Design **Quality** **Finish**

Our **Designs** are the latest and most popular patterns on the market.

The **Quality** is the very best. The locks are made from extra heavy material and we guarantee each one to be in perfect condition, and to be first-class in every respect.

In **Finish** we offer the following assortment:

Dull Brass	Designated as D B
Antique Brass Sanded	Designated as A B S
Dull Brass with Oxide Background	Designated as D B O
Old Copper	Designated as O C
Silver Grey	Designated as S G
Nickel	Designated as N
Polished Bronze	Designated as P B
Japanned	Designated as J

When ordering, be careful to specify whether STEEL or BRONZE and the kind of FINISH desired.

We beg to call attention to a few facts concerning the selecting of Builders' Hardware. First impressions often rest on little details and care should be taken in selecting such designs as will harmonize perfectly with architectural and decorative standards, whether for interior or exterior use. The hardware on your front door, for instance, is as much observed as the door itself, and should be in keeping with it.

Remember, that although your hardware is comparatively a small item of the total cost of your building, it is a big factor in its final appearance.

We hope the following designs will help you in selecting your hardware.

No. 62

IRONTON BUNSEN HEATERS

Radiant Heater with Andirons

These heaters have the famous Ironton Bunsen Burners which burn and re-burn the gas until every available atom has been turned into heat.

The special designs distribute the heat evenly to every nook and cranny of the room.

No Gas Wastage No Disagreeable Odors

Two Sizes

No. 91-A	Height 20½″	Width 29″	7 Radiants.....		**27.45**
No. 92-A	" 20½″	" 33″	10 "		**33.05**

Antique Brass, Statuary Bronze or Antique Nickel Finish.

Radiant Heater

Quicker Heat with Less Gas

Throws clean, healthful heat along the floor where the cold air naturally lies.

Two Sizes

No. 91	Height 20½″	Width 19″	7 Radiants.....		**23.15**

GOOD PAINT THINGS

In this section we quote net wholesale prices on a few important paint things of interest to contractors, builders and owners.

We know the quality of all the products that we sell or make and we are conservative in the claims made for them. You can depend upon every statement we make regarding quality. Our lines include some of the best known brands on the market, also products made in our own factory.

Net Prices

Prices when quoted in PLAIN NET FIGURES, as shown here, can be quickly judged. Net prices save figuring, avoid mistakes and make comparisons easy. We like comparisons.

While these prices are subject to change with the market, most of them will be as quoted until our next issue of this price list.

Service

Quick delivery and furnishing the right material for each purpose are important features to paint buyers.

Our immense jobbing stocks of everything required for interior and exterior work and our modern paint and varnish factory, enable us to give very prompt delivery at all times.

We have studied painting materials for years and will gladly advise you as to the correct methods and materials to use to get best results economically.

No obligation is incurred for asking for such information whether you buy from us or not.

If you do not find what you want in this book, send for our complete 36-page paint price list.

OUR FACILITIES

Our woodworking plant is the largest in America used exclusively for contractors' work. It covers over 4 acres of floor space, with most modern equipment, electrically operated.

Its special feature is carrying much of the stock partly made up, ready to finish quickly.

We carry besides two million feet of shop lumber.

All this is to supplement our stock of over one hundred carloads of doors, window frames, finish, plate and window glass, and builders' hardware, including the largest wholesale stock of paint and varnish in Ohio.

We also have our own Art Glass, Beveling and Silvering Plant.

We offer to the Builder the closest connection between manufacture and consumption—eliminating all unnecessary handling expense, waste and profit.

A TRIP TO CLEVELAND

To any contractor who has not yet visited us, and will come to Cleveland and look over stocks and facilities at our Mill and our Warehouse, and will place with us an order amounting to $100.00 net or more, based on our published prices, we will refund round trip Railroad Fare. (Limited to territory east of Illinois and north of Kentucky.)

Our object is to convince the contractor that we have the stocks, the quality, the Mill facilities, the facilities for Beveling, Silvering, Art Glass work—and the men and the methods to do his business, and do it right; and we ask you to remember when reading our advertisements in the future that every statement can be substantiated by you, practically without expense.

The Cleveland Window Glass & Door Co.
